MEDICAL DEPARTMENT

OF THE

TULANE UNIVERSITY OF LOUISIANA.

Formerly { 1834-1847 Medical College of Louisiana.
1847-1884 Medical Department, University of Louisiana.

CATALOGUE FOR 1901-1902. CIRCULAR FOR 1902-1903.

WITH NOTICE OF THE COURSE IN
PHARMACY OF THE MEDICAL DEPARTMENT.

THE CHARITY HOSPITAL OF LOUISIANA,
TULANE AVENUE, BETWEEN HOWARD AND LOCUST STREETS, NEW ORLEANS
TWO SQUARES FROM THE BUILDING OF THE MEDICAL DEPARTMENT.

AND WITH
ANNOUNCEMENTS
OF THE

ACADEMICAL DEPARTMENTS OF THE UNIVERSITY.

NEW ORLEANS:
The L. Graham Co., Ltd., [illegible] Baronne St.
[illegible]

FEB 7 1917

THIS CATALOGUE IS PUBLISHED ANNUALLY IN JUNE.

TULANE UNIVERSITY OF LOUISIANA.

(*Formerly, 1847-1884, the University of Louisiana.*)

PRESIDENT OF THE UNIVERSITY.

EDWIN A. ALDERMAN, LL. D.

ADMINISTRATORS.

His Excellency W. W. HEARD, *Governor of Louisiana.*
Hon. J. V. CALHOUN, *Superintendent of Education.*
Hon. PAUL CAPDEVIELLE, *Mayor of New Orleans.*
} *Ex-Officio.*

Hon. CHAS. E. FENNER, *President.*

JAMES MCCONNELL, *First Vice-President.*

R. M. WALMSLEY, *Second Vice-President.*

WALTER D. DENEGRE,
JNO. DYMOND, JR.
E. H. FARRAR.
HENRY GINDER.
CHAS. JANVIER.
J. B. LEVERT.
J. C. MORRIS.
B. M. PALMER, D. D., LL. D.
ASHTON PHELPS.
WALTER B. SPENCER.
WALTER R. STAUFFER.
BEVERLEY E. WARNER, D. D.

GEO. Q. WHITNEY.

Members of the Faculty and Other Officers.

STANFORD. E. CHAILLÉ, M. D., LL. D. Dean.,
Professor of Physiology, Hygiene and Pathological Anatomy.
ERNEST S. LEWIS, M. D.,
Professor of General and Clinical Obstetrics and Diseases of Women and Children
JOHN B. ELLIOTT, M. D.,
Professor of the Theory and Practice of Medicine and Clinical Medicine.
EDMOND SOUCHON, M. D.,
Professor of Anatomy and Clinical Surgery.
LOUIS F. REYNAUD, M. D.,
Professor of Materia Medica, Therapeutics and Clinical Medicine.
RUDOLPH MATAS, M. D.,
Professor of General and Clinical Surgery.
A. L. METZ, M. PH., M. D.
Professor of Chemistry and Medical Jurisprudence.

Lecturers, Instructors, Demonstrators.

LUTHUR SEXTON, M. D.,
Lecturer and Clinical Instructor on Minor Surgery.
EDW. W. JONES, M. D.,
Lecturer and Clinical Instructor on Diseases of Eye, Ear, Nose and Throat.
ISADORE DYER, M. D.,
Lecturer and Clinical Instructor on Diseases of the Skin.
H. S. LEWIS, M. D.,
Demonstrator of Obstetrics.
J. B. ELLIOTT, JR., M. D.,
Lecturer and Clinical Instructor on Physical Diagnosis.
E. D. FENNER, M. D.,
Lecturer and Clinical Instructor on Diseases of Children.
GEO. S. BEL. M. D.,
Lecturer and Clinical Instructor on Physical Diagnosis.
WM. W. BUTTERWORTH, M. D.,
Lecturer and Clinical Instructor on the Practice of Medicine.
P. E. ARCHINARD, M. D.,
Demonstrator of Microscopical Anatomy and Bacteriology.
O. L. POTHIER, M. D., J. J. ARCHINARD, M. D.,
Assistant Demonstrators of Microscopical Anatomy and Bacteriology.
HENRY BAYON, M. D.,
Demonstrator of Anatomy.
S. P. DELAUP, M. D., M. SOUCHON, M. D., JNO. F. OECHSNER, M. D.,
Assistant Demonstrators of Anatomy
H. B. GESSNER, M. D.,
Demonstrator of Operative Surgery.
W. M. PERKINS, M. D.,
Assistant Demonstrator of Operative Surgery.
A. WIRTH, M. PH.,
Demonstrator in charge of the Pharmaceutical Laboratory.
H. P. JONES, M. D., and OTTO LERCH, M. D.,
Assistant Demonstrators in the Chemical Laboratory.
RALPH HOPKINS, M. D.,
Instructor in Physiology, Hygiene and Pathological Anatomy.
J. B. GUTHRIE, M. D.,
Instructor in Materia Medica and Therapeutics.
JNO. SMYTH, M. D.,
Instructor and Demonstrator of Minor Surgery.

For Chiefs of Clinic, Etc., see pages 4 and 5.

MEDICAL DEPARTMENT.

1. This institution, founded in 1834 as the "Medical College of Louisiana," became in 1847 the "Medical Department of the University of Louisiana," and in 1884 the "Medical Department of the Tulane University of Louisiana." It is the oldest Medical College in the Southwest, and has the greatest number of alumni and of medical students. May, 1902, it had conferred diplomas on 3894—namely, on 3564 graduates in medicine and 330 graduates in pharmacy.

2. The next annual course of instruction in this department, now in the sixty-eighth year of its existence, will begin on Thursday, October 23, 1902.* The Commencement will be held on Wednesday, April 29, 1903. There will be only four holidays—Christmas, New Year, Mardi Gras, and Founders' Day. The first week of the term will be devoted especially to Clinical Medicine, Surgery, Obstetrics and Gynecology in the wards and amphitheatre of the Charity Hospital, and to practical work in the laboratories of Practical Anatomy (Dissecting Rooms), of Chemistry, of Pharmacy, and of Histology and Bacteriology. These laboratories will be open for instruction on Monday, October 27th, 1902.

Recent Improvements.

3. The antiquated amphitheatre, erected in 1847 in the Charity Hospital, was replaced in 1895 by a model building, seating more than 400 students, and admirably adapted to the exacting needs of modern surgery, as also to the greatly improved instruction of medical students.

The Library of the Medical Department was, in 1896, reorganized and replenished as a library of reference, to the great advantage of students, alumni and the medical profession.

The Milliken Memorial, an annex to the Charity Hospital, was opened in 1899 for the accommodation of 200 sick children, thereby increasing the great educational value of the Charity Hospital.

New Building with its Laboratories.

4. The Medical Department has, since October, 1893, occupied a new site, twice the size of the former one and only two squares from the Charity Hospital, and thereupon has been erected a four-story building (three stories above a most excellent basement), which provides ample accommodations for larger classes and for all the needs now requisite to medical education: larger and better lecture and recitation rooms, and, best of all, ample and well-equipped laboratories for Chemistry, for Pharmacy, for Practical Anatomy, for Operative Surgery, for Microscopical Anatomy, Pathology and Bacteriology, and working rooms for Practical Physiology and for gross Pathological Anatomy. These admirable laboratories, now added to the unrivalled practical advantages for clinical, anatomical, and pathological studies given by the Charity Hospital, enable the Medical Department to provide its students with unsurpassed advantages for their medical education.

For other details of the new building see pages 3 and 4 of the cover.

Educational Advantages Throughout the Year.

5. During the intervals between the annual sessions, as well as during the sessions, the Dissecting Rooms and the Charity Hospital are both open to students who have been duly registered and have paid the matriculation fee, $5,

*All who intend to become medical students are warned against crediting untavorable and exaggerated statements concerning the health of New Orleans; and are assured that during the sixty-eight years' existence of this college no student has ever died of yellow fever during the lecture term, which always occurs at a season when this disease is no longer to be feared and when New Orleans is as healthy as are other large cities.

for the next session; they are thus enabled throughout the year to prosecute the practical studies of utmost importance, viz.: Anatomy and Clinical Medicine, Surgery, etc., as indicated in the following paragraph.

Clinical Instruction at the Charity Hospital.

6. The faculty solicits the special attention, not only of students, but also of graduates of other colleges, to the unequalled clinical and anatomical advantages of the Medical Department.

It is universally admitted that without abundant anatomical and clinical material no medical school, however numerous or eloquent its professors, can possibly fit its pupils for practical professional life. It is scarcely necessary to state that it is only in large cities that such advantages can be procured, but it is of paramount importance that the opportunities there afforded should be properly utilized; that the students should be required, under the direction of the teacher, to examine patients for themselves, to keep record of cases, to note daily changes which may occur, and thus acquaint themselves by personal observation with the progress and termination of diseases and accidents. The mere introduction of a patient into an amphitheatre, and the discussion of his case by the professor in the presence of a large class, is no substitute for bedside instruction, such as is offered by the great Charity Hospital of New Orleans; and no reduction of lecture fees, not even their entire abolition, can possibly compensate for the lack of such opportunities. The use of the wards of this noble institution, with its *nine hundred beds,* and the annual occupancy thereof by from nine to ten thousand patients, and the use of the two clinical buildings, with about twenty thousand annual out-door patients, have been given by acts of the Legislature to the professors of the Medical Department of the Tulane University of Louisiana, for the practical instruction of its students, not only in Medicine and Surgery, but also in Obstetrics and Gynecology. Medical students are given access to the Charity Hospital, without payment of any hospital fees, and far better opportunities for the study of diseases therein than are usually enjoyed in the hospitals of other cities. For the study of the diseases of the Southwest, and also of the diseases of the negro race there is no field comparable to the wards of this hospital. Between the building of the Medical Department and the Charity Hospital there are only two squares, which distance is readily walked in three minutes.

The following table of 8368 cases treated in the wards of the Charity Hospital during the year 1901 will give some idea of the great advantages possessed by the Medical Department for the practical study of Medicine and Surgery:

Diseases.	No. of Cases.	Diseases.	No. of Cases.
Fevers and other general diseases	1361	Tumors	348
Respiratory Organs	846	Bones and joints	200
Nervous system	600	Toxic diseases	50
Circulatory organs	419	Skin	84
Digestive organs	842	Eye	166
Genito-urinary organs	606	Ear and nose	26
Women (225 obstetrical cases)	640	Local diseases and injuries	1768
Venereal	396	All other diseases	16
		Total	8368

There were 1,112 deaths and 233 births, and a daily average of 566 in-door patients. In addition to the 7,725 in-door patients, there were 21,164 out-door patients, to whom 58,842 consultations were given. In addition to these, there were 4,075 accident cases attended in the Surgical Amphitheatre. The 21,164 out-door patients furnished for instruction the following valuable material, viz.: medical cases, 5,275; surgical, 5,602; nervous, 303; venereal and dermatological, 2,049; diseases of children, 2,752; eye, ear, nose and throat, 2,630; dentistry, 814.

It should be noted that the sum total of all cases treated in 1901 in the Charity Hospital was 32,964.

Of the grand total of in-door and out-door patients in the Charity Hospital 13,069 were colored. There are sixteen wards for females. Of the fifty-two wards in the Charity Hospital there are twenty-three medical, fourteen surgical, two obstetrical and two gynæcological wards, two for children, four for diseases of the nervous system, two for venereal diseases, two for diseases of eye and ear, and one for skin diseases; and all these wards are accessible to students.

There are besides two admirable two-storied clinical buildings for out-door patients. Each of the buildings is subdivided into eight different services and seven of these are alike in both buildings, viz.: A service for medical cases; for nervous diseases; for surgical cases; for venereal and skin diseases; those of the eye; of the ear, nose and throat; and for cases of dentistry. In addition to these seven services the "Men and Boys' Clinic" has a surgical service for boys, and the "Women and Children's Clinic" has a gynæcological service.

The unequalled advantages of the Charity Hospital, as one of the greatest schools in the world for practical instruction, were notably increased in 1899 by the addition of the Milliken Memorial: a superb, modern and model building for the accomodation of 200 sick children.

It is manifest that these facilities for *genuine* clinical teaching, which recent improvements in the hospital have greatly increased, are now unsurpassed by any medical college in the United States.

7. The professors and clinical instructors are Attending Physicians or Surgeons of the Hospital, and visit their wards daily, accompanied by the students, who are thus brought into immediate contact with the sick and wounded, and are taught practically auscultation and percussion, analysis of urine, the use of the microscope in diagnosis, the application of dressings etc. Surgical operations are performed and lectures delivered upon selected cases in the amphitheatre of the hospital.

Special clinical instruction is given to the candidates for graduation and to all students, who are for this purpose divided into classses and assigned to the respective professors and clinical instructors, in charge of wards of the hospital. The classes thus formed interchange courses so that all students enjoy equal advantages. Competent Chiefs of Clinic aid the clinical teachers in developing this system of instruction. The following professors and clinical instructors and their respective chiefs of clinic and assistants will be on duty the ensuing session:

PROF. ERNEST S. LEWIS, M. D.	E. H. WALET, M. D. C. N. CHAVIGNY, M. D. I. I. LEMANN, M. D.	*Chiefs of Clinic.*
PROF. JOHN B. ELLIOTT, M. D.	P. E. ARCHINARD, M. D. W. W. BUTTERWORTH, M. D.	
PROF. EDMOND SOUCHON, M. D.	C. L. HORTON, M. D. MARION SOUCHON, M. D.	
PROF. L. F. REYNAUD, M. D.	OTTO LERCH, M. D. N. F. THIBERGE, M. D. L. C. CHAMBERLAIN, M. D. J. M. SONIAT, M. D.	
PROF. RUDOLPH MATAS, M. D.	FELIX A. LARUE M. D. H. B. GESSNER, M. D. J. LAZARD, M. D.	

Clinical Instructors.	Assistant Clinical Instructors.
DR. LUTHER SEXTON.....	
DR. EDW. W. JONES.....	
DR. ISADORE DYER.....	RALPH HOPKINS, M. D.
DR. H. S. LEWIS.....	
DR. JOHN B. ELLIOTT, JR.....	H. B. ORR, M. D.
DR. E. D. FENNER.....	CHAS. A. BOREY, M. D. G. K. LOGAN, M. D.
DR. G. S. BEL.....	
DR. W. W. BUTTERWORTH,.....	

The regular lectures at the Hospital, on Clinical Medicine, by Professors Elliott and Reynaud; on Surgery, by Professors Matas and Souchon, and on Obstetrics and Diseases of Women and Children, by Professor Lewis, will be delivered in the amphitheatre, daily, between 8:30 A. M., and 12 M.

Post-mortem examinations are made in the presence of the class by the Professor of Pathological Anatomy.

Diseases of the Eye and Ear are taught in the eye-wards and amphitheatre of the hospital, and constitute a part of the curriculum of the surgical chair.

Special instruction in diseases of the skin, diseases of children, physical diagnosis, minor surgery and obstetrical manipulations is given by the Lecturers on these subjects.

8. The Administrators of the Charity Hospital elect annually, by competitive examination in February or March, sixteen resident students who are entitled to board and lodging in the institution free of charge, and seventeen externes, who serve as assistants in the out-door clinics.

Lectures and Laboratories.

9. *Lectures.*—Systematic didactic instruction will be given daily, immediately after the Hospital clinics, in the new building of the Medical Department on Canal Street, between Villere and Robertson Streets, only two blocks from the hospital. The means for illustrating the didactic lectures consist of numerous models in wax, papier mache, plaster and wood of rare and beautiful workmanship, executed in London, Paris and Florence expressly for the Medical Department; very many tables and diagrams; a complete series of specimens in materia medica; surgical and obstetrical instruments and appliances; a large collection of natural, anatomical and pathological specimens and preparations, and a set of chemical and physical apparatus.

In addition to other usual methods of teaching anatomy, Prof. Souchon illustrates his lectures with very instructive and attractive colored lantern-slides; a method thus far special to this college.

Chemical Laboratory.

10. This laboratory readily accommodates ninety-six students working at the same time, and two courses therein are obligatory on all students of the four-year course. These two courses are graded and both are devoted to teaching such knowledge of chemistry as will prove of greatest service to the practicing physician. The first course is devoted to general chemistry and the second course to physiological and medical chemistry. The Chemical Laboratory is under the direction of the Professor of Chemistry, aided by Drs. H. P. Jones and Otto Lerch, Assistant Demonstrators.

Pharmaceutical Laboratory.

11. This laboratory is thoroughly well organized and possesses a complete outfit for practical instruction. It is under the directorship of Adam Wirth Master of Pharmacy. See also paragraphs 36 to 41.

Microscopical Laboratory.

12. This laboratory readily accommodates one hundred and twenty-two students working at the same time, and two courses are obligatory on all candidates for graduation in the four-year course; the first will be a complete course on normal histology and the second will be on pathological histology, bacteriology and clinical microscopy. This laboratory is in charge of Dr. P. E. Archinard, a pupil of Pasteur and Koch, assisted by Drs. O. L. Pothier and J. J. Archinard.

Laboratory of Practical Anatomy.

13. This laboratory is unusually well ventilated and lighted, and is the largest of all the laboratories, allowing more than two hundred students to dissect at the same time. It is in charge of Dr. H. Bayon, assisted by Drs. S. P. Delaup, M. Souchon and J. F. Oechsner. Demonstrations of the cavities and of the viscera are given on specially prepared subjects. First-course students are given preparatory instruction on Osteology and Arthrology by Dr. M. Souchon and are supplied with boxes of bones which they are permitted to study at their rooms.

Operative Surgery.

14. Is practically taught in the Miles Laboratory of Operative Surgery. The instructors in charge are Dr. H. B. Gessner, Demonstrator, and Dr. W. M. Perkins, Assistant Demonstrator. The entire field of General Operative Surgery will be gone over, the steps of each operation being first admirably illustrated by means of an Electric Optical Projector and fully explained by the Demonstrators, after which the students, in sections, will perform the operation in the presence of the Demonstrators and the class. Quizzes and reviews, supplementary to the laboratory work, are added to this course and have proved most useful.

Laboratory of Minor Surgery.

14. a. This laboratory was first organized and equipped in 1901 by Dr. R. Matas, Professor of Surgery. In it a systematic course of demonstrations and individual exercises in minor surgical procedures, including first aid to the injured and in emergencies, will be given by Dr. John Smyth, the Demonstrator in Charge. The course will consist of three demonstrations per week for first-course students, and one weekly demonstration in more advanced studies and procedures, for second-year students. The aim of this course will be to prepare the student, by a series of personal experiences in the laboratory and by actual manual training in the application of the elementary and fundamental procedures of minor surgery, for the more intelligent and rational application of the knowledge acquired in the surgical out-door clinics of the Charity Hospital to which he is introduced by a special clinical instructor in his second year of study.

Requirements for Matriculation.

Every student before being matriculated for the first course of Medical Lectures shall be required to possess the following qualifications:

15. He shall hold a certificate as the pupil of some known reputable physician, showing his moral character and general fitness to enter upon the study of medicine. (See form No. 1.)*

16. He must possess a diploma of graduation from some literary or scientific institution of learning; or a certificate from some legally constituted High School, General Superintendent of State Education or Superintendent of some County or Parish Board of Public Education, attesting that he has been examined and is possessed of at least the educational attainments required of first grade teachers of public schools, or a certificate that he has passed the entrance examination to a State university. (See form No. 2.) †

17. A set of tickets showing that the holder has attended one full course of medical lectures in any regular and recognized medical college, is essential to matriculating for a second course of lectures; and every student, prior to matriculating for a third or fourth course of lectures, shall be required to show by similar evidence that he has previously taken two or three courses of lectures.

18. The following classes of students may apply for advanced standing and obtain it, provided every applicant undergoes a satisfactory examination upon every branch below the class desired to be entered:

(*a*) Graduates of Pharmacy, of Dentistry and of Veterinary Medicine.

(*b*) Graduates and matriculates of Colleges of Homeopathy and of Eclectic Medicine.

(*c*) Graduates of recognized Colleges and Universities, who have completed therein prescribed courses in elementary branches of medicine, including Chemistry and Biology.

Advanced standing is granted solely from the first to the second year, and is conditioned on the completion prior to graduation of *all* of the required laboratory courses, including those of the first year.

---

*Form No. 1. .....190..

Secretary (or Dean) of.....

City.....State.....

Dear Sir:

Mr. .....of.....

is a gentleman of good moral character. I recommend that he be allowed to enter upon his medical studies in your college. He has been my pupil..... months.

Yours,

(Sign here).....

---

† Form No. 2. .....190..

Secretary (or Dean) of.....

City .....

Dear Sir:

I have examined Mr.....

of .....and find his scholastic attainments equal to those requisite for a first grade teacher's certificate in our public schools.

Yours,

.....Supt. Pub. Education.

Requirements for Graduation.

19. Every candidate for graduation must be of good moral character and must have attained the age of twenty-one years.

20. He must have attended, in a regular and reputable medical college, four full courses of lectures, of not less than six months in four separate years, and the last of these courses must have been in this institution.

20. (a.) Students, who matriculated for the three-year course prior to January 1st, 1899, and who have completed the first and second years of said course, will be permitted to complete during the session of 1902-3, the third and last year of the three-year course and to become candidates for graduation in 1903; *provided* that one or both of said two courses were completed in this institution; and *provided* that they have complied with all the regulations for graduation of students of the three-year course, including two annual courses of clinical medicine, two courses of dissection and one course in a chemical and one in a microscopical laboratory and one in a laboratory of operative surgery. After 1903, every graduate of this institution must have attended and paid for four full courses.

21. Candidates for graduation of the four-year course must have taken (1) two annual courses of clinical medicine; (2) two of Practical Anatomy (dissecting), (3) two courses in a chemical laboratory, viz.: one of general chemistry and one of physiological and medical chemistry; (4) two courses in a microscopical laboratory, viz.: one of histology and one of pathological histology, bacteriology and clinical microscopy; and (5) one course in a laboratory of operative surgery.

22. Every candidate for graduation must submit a thesis (composed exclusively by himself, on a subject within his own personal observation or research, and in his own handwriting) to the dean, between January 1 and March 1 of his last session;* must have paid all college dues, including the graduation fee, and must pass satisfactory examinations before the members of the faculty.

N. B.—A candidate for graduation, who may fail to pass satisfactory final examinations after three annual trials will not be examined again.

Examinations After Two Annual Sessions.

23. Students who have attended and paid for two full courses and who have records of satisfactory attendance on two courses in a laboratory of practical anatomy (dissecting), of one course in a laboratory of chemistry and of one course in a laboratory of histology, are permitted to undergo examinations by one or more of the professors who teach Chemistry; Anatomy; Physiology; Hygiene, and Pathological Anatomy; Materia Medica. A fee of $15, in part payment of the fee for "Examination, Graduation and Diploma," specified in paragraph 26, will be charged for any certificate given of satisfactory examinations on one or more of the above specified branches. These examinations, if successful will not be repeated, but if the applicant should fail upon one or more of them he will be granted a second trial at the next examination.

Students who enter the third or fourth year, but who have not passed the above preliminary branches in this college, will be given opportunity to undergo the above examinations early in the session and also at its close.

Attendance on More than Three or Four Annual Courses.

24. Students who have attended and paid for all of the required full courses, the last of which was in this institution, are thereafter entitled to attend the lectures and the hospital without charge for the professors' fees.

---

*The names of authors of very meritorious theses are publicly mentioned at Commencement. Students about to become candidates for graduation are urged to prepare their theses during the summer vacation.

Fees.

25. The fees of this institution are now $580 for the four-year course.

Considering the exceptional advantages for practical instruction in hospital and laboratories, and the constant care and labor bestowed upon the pupils, the charges are as low as are compatible with the superior advantages given; and the faculty therefore appeal to their professional brethren throughout the Southwest to continue their support to an institution which does not seek to increase the size of its classes by pecuniary rivalry and discreditable underbidding, but by offering a full equivalent for its charges.

26. Table of Fees for Every Year of the Four-Year Course.

	1ST YEAR	2D YEAR	3D YEAR	4TH YEAR.
Matriculation	$5	$5	$5	$5
Professors, Lecturers, etc.	105	105	110	120
Practical Anatomy Laboratory	10	10	.....	.....
Chemical Laboratory	15	.....	15	.....
Microscopical Laboratory	.....	15	15	.....
Operative Surgery Laboratory	.....	.....	.....	10
Examination, Graduation and Diploma	.....	.....	.....	30
Total, $580, viz.	$135	$135	$145	$165
Breakage Fees	5	5	10	

N. B.—See paragraph 30 for Breakage Fees.

A student who submits satisfactory certificates that he has attended in a recognized medical college and paid for the required laboratory courses, will not be charged the fees above specified for the courses previously taken.

The faculty reserves the right to decrease or to increase the above fees for the four year course after the session of 1902-3; but it is not probable that the total fees of any one session will exceed $150.

Regulations as to Fees for Students.

27. All fees are payable on admission, except the graduation fee $30, which is not accepted earlier than January 1st, nor later than March 1st. Ten dollars of this fee will not be returned to candidates for graduation who may fail to pass satisfactorily the final examinations.

28. Students who have attended and paid for the two courses, that are obligatory for graduation, in a Laboratory of Practical Anatomy (dissecting), will be charged only $5 (instead of $10) for an additional course; and students, who have attended and paid the full fees for other obligatory laboratory courses, will be charged a smaller fee for any laboratory course voluntarily taken.

29. *Matriculation Fee.*—Every person, whether student or graduate, admitted to the privileges of this College, must pay a matriculation or registration fee of $5 for every session he may attend; and he will not be entitled to admission to either College or Hospital until registered.

30. *Breakage Fees.*—A breakage fee of $5 must be deposited for every course in the Chemical, in the Pharmaceutical and in the Microscopical Laboratory to reimburse needless injuries inflicted on the laboratories and their contents. At the end of every session the breakage fee will be refunded, in whole or in part, depending on the charges incurred by the student.

31. Graduates of this College and all medical students, who have paid for all of the required full courses, will not be charged the professors' fees, but will

be charged the matriculation fee and fees for all laboratory courses they may voluntarily attend. See Par. 28.

32. Students who do not attend full courses, but only *partial* or *special* courses, must pay for the tickets of the professors whom they may attend, $20 each; and for other fees as in the Table of Fees. Partial-course students are admitted at any time during the session.

33. Graduates of other recognized medical colleges must pay matriculation fee, $5, and for the professors' fees, $70, and thereafter will be entitled to the same privileges given to the graduates of this College. See Pars. 24 and 28. They can not, however, obtain its diploma without passing the final examinations, and without paying the graduation fee.

Studies and Subjects for Examination in Every Year.

34. *First Year's Studies*: Medical Physics, Chemistry and Toxicology, Anatomy, Demonstrations of Pathological Anatomy, Physiology and Hygiene, Materia Medica, Physical Diagnosis in the Hospital wards; Chemistry (general), Practical Anatomy (dissecting) and Minor Surgery in these three Laboratories.

Examinations will be required, during or at the close of the first year by the Professor of Chemistry, and by the Instructors of Physiology and Hygiene, of Materia Medica, and of Physical Diagnosis, and records of satisfactory attendance and knowledge in the laboratories of Chemistry, of Practical Anatomy, and of Minor Surgery will also be required.

Second Year's Studies: Chemistry, Toxicology and Organic Chemistry (including physiological and medical chemistry), Anatomy, Pathological Anatomy, Physiology and Hygiene, Materia Medica and Therapeutics; Physical Diagnosis and Minor Surgery in the Hospital wards; Practical Anatomy and Histology in these two Laboratories.

Examinations will be required during or at the close of the second year by the Professors of Chemistry, of Anatomy, of Physiology, Hygiene and Pathological Anatomy, of Materia Medica and Therapeutics; by the Instructors of Physical Diagnosis and of Minor Surgery (advanced); and records of satisfactory knowledge and attendance in the laboratories of Practical Anatomy and of Histology will also be required.

Third Year's Studies. Theory and Principles of Medicine, of Surgery, of Obstetrics and Gynecology (including Obstetrical Manipulations in normal labor), and clinical instruction in said branches; Therapeutics; Clinical Medicine and Diseases of the Skin in the Hospital wards; Chemistry (physiological and medical), and Pathological and Clinical Microscopy and Bacteriology in these two Laboratories; Operative Surgery, optional in the third but obligatory in the fourth year.

Examinations will be required during or at the close of the third year by the Professors of the Practice of Medicine, of Surgery, and by the Professor of Obstetrics, etc., or his assistant, and by the Professor of Therapeutics; by the Instructors of clinical medicine and diseases of the skin; and records of satisfactory attendance and knowledge from the Laboratories of Chemistry, and of Bacteriology will also be required.

N. B.—The final examination on diseases of the skin may be deferred until the fourth year.

Fourth Year's Studies: The Practice of Medicine, of Surgery, of Obstetrics and Gynecology (including Obstetrical Manipulations), and clinical instruction in said branches, Diseases of Children and of the Eye, Ear, Nose and Throat, and Medical Jurisprudence; Operative Surgery in its special Laboratory, if not taken in third year.

Examinations will be required during or at the close of the fourth year by the Professors of the Practice of Medicine, of Surgery, of Obstetrics, etc., and of Medical Jurisprudence; by the Instructors of the Diseases of Children, and of the Eye, Ear, etc.; and a record of satisfactory attendance and knowledge from the Laboratory of Operative Surgery.

New Orleans Polyclinic.

35. Students of the Polyclinic, who are graduates of the Medical Department, are admitted to the lectures and clinical instruction of said department on payment thereto of $5 for its annual session; and Polyclinic students, who are not graduates of the Medical Department, will be admitted to the same privileges during a six-weeks term of the Polyclinic on payment of a fee of $15 to the Medical Department. All students of the Medical Department, graduating at the opening of or during a term of the Polyclinic, will be admitted thereto on payment of one-half of its regular rates. For further information in regard to the Polyclinic, address its secretary, Dr. Isadore Dyer, 124 Baronne street.

Instruction in Pharmacy.

The University is also authorized by law to grant diplomas in Pharmacy, and the Medical Department has exercised this privilege since 1838, having now 330 graduates in Pharmacy.

36. The students in Pharmacy are required to attend two annual courses of lectures given by the professors on Chemistry and Medical Jurisprudence, on Materia Medica and Therapeutics, and on Hygiene, and to attend one course in the Chemical and two courses in the Pharmaceutical Laboratory. They are not charged professors' fees after attendance on two full courses, but all students are charged for all laboratory courses however numerous these may be.

Instruction in the Pharmaceutical Laboratory is graded, and consists of a junior and senior course. These courses are designed to fit the students to conduct the process of manufacturing and of dispensing in the most thorough and economical manner.

37. Reputable women are admitted as students to the full course in Pharmacy on the same terms and conditions required of male students.

38. Pharmacy students are subjected to the educational "requirements for matriculation" enforced on medical students. (See paragraphs 15, 16) and all candidates for graduation in Pharmacy must comply with the requirements specified in paragraphs 19, 22 and 36 and must also submit to the Dean a satisfactory certificate of at least two years' practical experience under the instructors of a competent pharmacist.

39. *Fees.*—The charge for the first full course in Pharmacy is $75, viz., for matriculation $5, professors' fees $35, chemical laboratory $15, and pharmaceutical $20; and for the second course $80, excluding the chemical laboratory, $15, and including the graduation fee, $20. In addition, every student must deposit a breakage fee of $5 for the Chemical and $5 for the Pharmaceutical Laboratory in accordance with paragraph 30.

40. Medical students who take a course also in Pharmacy are required to pay additional fees for only two courses in the Pharmaceutical Laboratory. Both of these courses (junior and senior) can be completed in one session. The student, who has completed two annual sessions in medicine and one, as above, in pharmacy, can become a candidate for graduation in pharmacy.

42. The Chemical and Pharmaceutical Laboratories will be open for instruction on Monday, October 27, 1902.

Text-Books

42. The books mentioned below are recommended in preference to others; but *recent editions of any standard works* may be used in their stead. Only one text-book on each branch is indispensable. The cost of a set of text-books on all the branches is about $50. The prices affixed below are now the lowest prices of the cheapest copies, usually in cloth:

Dictionaries—Dunglison, $7.00; Gould's Student's, $2.50; Dorland's, $5.00; Gould's Illustrated, $10.00.

Physics—Avery, $1.00; Gage, $1.25.

Chemistry—Simon, $3.00; Hammerstein Physiological Chemistry, $4.00; Witthaus' Manual, $3.25; Pellew, $2.25; Bloxham, $4.25.

Medical Jurisprudence—Reese, $3.00; Taylor (Bell Edition), $4.50.

CHEMICAL LABORATORY—Simon, $3.00; Metz, $——.

PHARMACEUTICAL LABORATORY—Remington's Practice of Pharmacy, $6.00; United States Dispensatory, $7.50; United States Pharmacopœia, $2.50, Caspari, $4.50; Coblentz, $3.50.

MICROSCOPICAL LABORATORY—Histology—Prudden, $1.25; Klein, $2.00; Medical Epitome Series of Lea Brothers & Co., $——; Piersol, $3.50; Bacteriology—Abbott, $2.75; Medical Epitome Series of Lea Brothers & Co., $——; Sternberg, $4.50; McFarland, $3.25; Pathological Histology—Green, $3.25; Coplin, $3.50.

ANATOMY—Morris, $6.00; Gray (Colored Plates), $6.25; Holden, $3.00.

PATHOLOGICAL ANATOMY—Green, $3.25; Stengel, $5.00; Coplin, $3.50.

PHYSIOLOGY—Brubaker, $0.80; Kirke, $3.00; Waller, $4.00; Foster, $4.50; American Text-book, $6.00; Chapman, $4.25; Stewart, $3.75; Raymond, $3.00; Hall, $4.00.

HYGIENE—Wilson, $3.00; Parkes, $4.00; Egbert, $2,25; Harrington, $4.25; Abbott's Transmissible Diseases, $2.50.

MATERIA MEDICA AND THERAPEUTICS—Bartholow, $5.00; White and Wilcox, $3.00; Hare, $4.00.

PRACTICE—Flint, $5.00; Osler, $5.50; Pepper, $10.00; Loomis and Thompson, $20.00; Anders, $5.50; Thompson, $5.00; Tyson, $5.50.

NERVOUS AND MENTAL DISEASES—Gray, $4.75; Ranney, $5.00.

DISEASES OF SPINAL CORD—Bramwell, $4.00.

PHYSICAL DIAGNOSIS—Page, $2.00 Loomis, $2.50; Flint on Respiratory Organs, $4.50.

DERMATOLOGY—Morris, $3.25; Schamberg, 80c.

SURGERY—American Text-book, $7.00; Park, 3rd Ed. $7.00; International Text-book, $10.00; DaCosta, $5.00; Surgical Pathology—Senn, $5.00; Warren $5.00; Tillman, $5.00; Minor Surgery—First Aid and Emergencies—Doty, $1.50; Pilcher, $2.00; Wharton, $3.00; Beck, (Asepsis and Antisepsis), $1.25; Operative Surgery J. D. Bryant, 2 volumes, $10.00; Zuckerandl, $3.00; Stimson, $3.00; Treves, Students' Handbook, $2.50; Stimson, $3.00; Venereal Diseases—Taylor, $5.00; Hyde and Montgomery, $4.00; General Reference—Dennis' System of Surgery, $24.00.

DISEASES OF THE EYE—Noyes, $5.00; Nettleship, $2.25; De Schweinitz, $4.00; Gould & Pyle, 80c.; Ballenger, $2.50.

DISEASES OF THE EAR—Politzer, $4.75; Buck, $3.50; Gruber, $6.00; Bacon $2.25.

DISEASES OF THE NOSE AND THROAT—Sajous, $4.00; Bosworth, $4.50; Bishop, $4.00.

OBSTETRICS—Jewitt, $5.00; Playfair, $3.75; Hirst, $5.00; American Text-book, $7.00; Shaeffer, $3.00.

GYNAECOLOGY—Garigues, $4.50; Penrose, $3.75; Dudley, $5.00; Reid, $5.00; Montgomery, $5.00.

DISEASES OF CHILDREN—Holt, $6.00; Smith (J. Lewis), $4.50; American Text-book $7.00. Orthopædic Surgery—Bradford & Lovett, $4.50.

Students Preparing to Enter College.

43. Are recommended to study especially Avery's or Gage's Physics; Simon's Chemistry; Morris' or Gray's Anatomy; Brubaker's and Kirke's Physiology, or any other standard works on these four subjects.

The study of physics is especially urged on all intending to enter a medical college.

Expenses, Etc.

44. Information about houses for boarding and lodging may be obtained by application to the Janitor. The price usually paid by students varies from $18 to $22 per month.

45. For any additional information address "PROF. CHAILLÉ, DEAN, P. O. Drawer, 261." Letters thus *officially* addressed secure prompt attention even if the Dean be absent from New Orleans.

STANFORD E. CHAILLÉ, M. D., *Dean of Medical Department.*
NEW ORLEANS, LA., *June*, 1902.

GRADUATES OF 1902.

At the Sixty-eighth Annual Commencement, held Wednesday, April 30 1902, the Annual Address was delivered by Robert B. Fulton, LL. D., Chancellor of the University of Mississippi.

Degrees were conferred on 53 graduates, viz., 49 in medicine and 4 in pharmacy, as follows:

GRADUATES IN MEDICINE—49.

NAME.	POST OFFICE.	COUNTY.	STATE.
Anderson, Wm. Jefferson (M. D.)	Increase	Lauderdale	Mississippi
†Baltzell, Nicholas Albert	Marianna	Jackson	Florida
Bartlett, Glenn	Bigfoot	Frio	Texas
*Bernadas, Hector Emile	New Orleans	Orleans	Louisiana
§Boyd, Franklin Virginius (A. B.)	Morgan City	St. Mary	Louisiana
Butler, Thomas, Jr.	St. Francisville	West Feliciana	Louisiana
Chamberlain, Chas. Thomson, Jr.	Natchez	Adams	Mississippi
§Cirino, Joseph William	New Orleans	Orleans	Louisiana
*Cobb, Carmotte Ashley	Montgomery	Montgomery	Alabama
Darwin, Thos. Martin (B. Sc.)	Lake Creek	Delta	Texas
Delambre, Jules John	Slaughter	East Feliciana	Louisiana
Downs, Harry Edmond	Arcadia	Galveston	Texas
Feucht, Stephen Paul (A. B.)	Reserve	St. John the Baptist	Louisiana
†§Fickessen, Wm. Robert	New Orleans	Orleans	Louisiana
§Fossier, Albert Emile (A. M.)	New Orleans	Orleans	Louisiana
Frazer, Geo. Brasfield	Alva	Woods	Oklahoma Territory
Frechet, Eugene Alphonse	New Orleans	Orleans	Louisiana
Fulton, James D.	New Orleans	Orleans	Louisiana
*Hummel, Edward Morton	New Orleans	Orleans	Louisiana
*§Jacoby, Alfred (B. A.)	New Orleans	Orleans	Louisiana
King, Allen Swan	New Orleans	Orleans	Louisiana
Ledbetter, Abbe Alzu, Jr.	Sweet Home	Lavaca	Texas
*Levy, Joseph	New Orleans	Orleans	Louisiana
Lipscomb, Charles Day	Quitman	Wood	Texas
Long, Thos. Jonathan	Caddo	Choctaw Nation	Indian Terry.
McGehee, Edward Larned, Jr.	New Orleans	Orleans	Louisiana
Mayer, Albert Joseph (B. A.)	New Orleans	Orleans	Louisiana
Means, Geo. Simonton (M. D.)	Evinston	Alachua	Florida
Micou, Morgan T.	Montgomery	Montgomery	Alabama
†Newman, Jacob W. (Ph. D)	New Orleans	Orleans	Louisiana
Nowlin, James Foster	Ben Wheeler	Van Zandt	Texas
Pedigo, Howard Birch	Kountz	Hardin	Texas
Poche, Walter Andrew	Cade	St. Martin	Louisiana
§Reilley, Walter H.	New Orleans	Orleans	Louisiana
*†§Richards, Waldemar T.	New Orleans	Orleans	Louisiana
Rudolf, Theobald Robt. (B. C. E.)	New Orleans	Orleans	Louisiana
Sampite, J. Alphonse	Cloutierville	Natchitoches	Louisiana
Seebold, Hermann Boehm	New Orleans	Orleans	Louisiana
*Sexton, Troy Curtis	Hazlehurst	Copiah	Mississippi
Smith, John Charles	Starrville	Smith	Texas
Spratt, Robert Davy (A. B.)	Livingston	Sumter	Alabama
Stulb, Joseph G.	New Orleans	Orleans	Louisiana
Taliaferro, Wm. Field	Bryan	Brazos	Texas

NAME.	POST OFFICE.	COUNTY.	STATE.
*Terry, H. Finlaey	Dallas	Dallas	Texas
Travis, Wm. Barrette	Liverpool	St. Helena	Louisiana
Warwick, Bishop Billings (B. Sc.)	Talladega	Talladega	Alabama
*Wilkinson, James Arthur	Raleigh	Navarro	Texas
§Wilson, Peter (M. Ph.)	New Orleans	Orleans	Louisiana
Worthington, T. Flournoy. (B. Sc.)	Wayside	Washington	Mississippi

* Internes in the Charity Hospital, New Orleans.

† Internes in the Touro Infirmary, New Orleans.

§ Externes of the Charity Hospital, New Orleans.

GRADUATES IN PHARMACY—4.

Gallaway, Marvin	Naples	Morris	Texas
Guglielmo, Joseph Francis	Paulina	St. James	Louisiana
Hemard, Chas. Alfred (B. A.)	New Orleans	Orleans	Louisiana
Levie, Edward Joseph	New Orleans	Orleans	Louisiana

TOTAL MATRICULATES IN SESSION 1901-2—424.

MEDICAL STUDENTS—398.

* The sixteen internes of the Charity Hospital.

§ The thirteen externes of the Charity Hospital.

‖ Partial course students.

‡ Medical student who took also the Course in Pharmacy.

POST-GRADUATE STUDENTS—37.

NAME	WHERE GRADUATED.	STATE.
Allen, M. Young (M. D.)	Med. Dept., Tulane Univ. 1898	Georgia
Armstrong, Marvin (M. D.)	Med. Dept., Tulane Univ. 1892	Texas
Blackwell, J. Melvin (M. D.)	Med. Dept., Tulane Univ. 1900	Texas
Blackwell, Owen G. (M. D.)	Med. Dept., Tulane Univ. 1901	Arkansas
Boyd, Robt. (M. D.)	Barnes Med. Coll., St. Louis, 1897	Texas
Brown, J. Mack (M. D.)	Med. Coll. Ala., 1889	Alabama
Clements, Harvey J. (M. D.)	Med. Dept., N. O. Univ. 1892	Louisiana
Drouin, Geo. L. (M. D.)	Med. Dept., Tulane Univ., 1899	Louisiana
Faulk, Lemuel (M D.)	Louisville Med. Coll. 1894	Texas
Grisard, Jno. P. (M. D.)	Med. Dept., Univ. Tenn	Tennessee
Hargrave, James H. (M. D.)	Med. Dept., Tulane Univ., 1901	Louisiana
Harrison, James M. (M. D.)	Atlanta Med. Coll., 1880	Mississippi
Hilton, Robt. A. (M. D.)	Louisville Med. Coll., 1894	Arkansas
Holstein, Jas. Hy. (M. D.)	Med. Dept. Tulane Univ., 1899	Louisiana
Hunt, Preston (M. D.)	Coll. Phys. & Surgns., Atlanta, 1901	Texas

THE TULANE UNIVERSITY OF LOUISIANA.

NEW ORLEANS.

EDWIN ANDERSON ALDERMAN, D. C. L., LL. D., PRESIDENT.

DEPARTMENTS:

GRADUATE DEPARTMENT, with advanced courses of study in all subjects.

COLLEGE OF ARTS AND SCIENCES, with Classical, Literary and Scientific Courses.

COLLEGE OF TECHNOLOGY, with Mechanical, Electrical, Chemical, Sugar and Civil Engineering Courses.

H. SOPHIE NEWCOMB MEMORIAL COLLEGE for Young Women, with Art and Boarding Departments. Brandt V. B. Dixon, LL. D., President.

LAW DEPARTMENT, Harry H. Hall, B. L., Dean.

MEDICAL DEPARTMENT, Stanford E. Chaille, M. D., LL. D., Dean.

The Graduate and Academic Departments of the University are located in the new buildings on St. Charles Avenue, opposite Audubon Park.

These departments are well equipped with libraries, museums, extensive laboratories, workshops and scientific apparatus. The facilities for instruction in Engineering are unsurpassed in the South. Tuition in the Academic Department is $85 per session, with small laboratory and other fees. There are more than 175 scholarships in the Academic Department open to Louisiana boys. Opportunities afforded for self-help. No worthy boy, if needy, shall be turned away from its doors.

The H. Sophie Newcomb Memorial College is devoted to the higher education of young women. The college buildings are situated in the best residence section of the city. The beauty of its situation and surroundings is unsurpassed.

The course of study extends over four years, and embraces full instruction in the language and the sciences. Special attention is given to Art instruction, in the Art Building, which offers exceptional opportunities for the study and practice of industrial and fine arts. There is a High School which prepares students for the college.

The tuition charge in the College is $90 and in the High School $75. Provision has been made for the accomodation of boarding students in the Josephine Louise House and The Gables, modern buildings provided with the most approved appliances for the care and comfort of their inmates.

The Law Department is located in Tulane Hall. The standard of legal instruction afforded by the University has always been of the highest, and the

studies prescribed, as well as the examinations and other tests exacted of the students, are designed to maintain that standard. The degree of Bachelor of Laws, granted by the University, entitles the holder on whom it is conferred to admission to the bar of this State without examination. The Faculty aim to prepare the students for admission to the bar not only of this State, but also in any of the Common Law States of the Union. The charge for lectures is $90 per session, payable in advance at matriculation.

For full information relative to the Medical Department see this circular.

For special circulars address the Deans of the respective departments. For general catalogue of the University address—

RICHARD K. BRUFF, Secretary.

DESCRIPTION OF THE NEW BUILDING.

Erected 1893.

The general plan consists of a central building to provide two large lecture rooms, one above the other; and of two wings, chiefly for laboratories, but also for library, museum, offices, recitation and private rooms.

An unusually well lighted, well floored, dry and commodious basement provides ample storage rooms, and also excellent rooms for the greater comfort of students, such as a study-room, smoking-room, etc.

The lecture-rooms, laboratories, and all rooms except those in the basement are free from all posts and pillars; the two lecture-rooms are abundantly lighted and ventilated, and having a seating capacity, the first floor lecture-room for 485, and the third floor ampitheatre for 525 students.

The Microscopical Laboratory is believed to be unsurpassed in lighting and ventilation, and in size, accommodating 122 students.

The students' Chemical Laboratory has the same size and superiorities.

The Dissecting Rooms are believed to be unsurpassed in all essentials, and can accommodate 204 students at work at the same time.

Lavatories and urinals are conveniently located on every floor.

The building supplies several private rooms for special work of students or graduates.

Lockers are amply supplied for the personal use of every student to secure his books, instruments, overcoats, etc.

The college lot measures about 256½ feet front on Canal Street. 199¼ feet on Villere Street, 313¼ feet on Robertson Street, and 102¼ feet on Customhouse Street; containing, therefore, about 62,764 square feet, while the building occupies only 16,528 square feet; thus leaving ample sqace for ornamentation and recreation grounds at present and for extension in the future.

ROBERTSON STREET, WEST WIND.

VILLERE STREET, EAST SIDE.

MEDICAL DEPARTMENT, TULANE UNIVERSITY OF LOUISIA

Fronting Canal Street, between Villere and Robertson Streets.

Dimensions, 16[illegible] by 1[illegible] feet depth. The Central Building measures 76 feet front by [illegible] feet depth, and each wing 4[illegible] feet by 1[illegible] feet depth. The Building occupies 16,5[illegible] square feet of the college lot, which contains [illegible],7[illegible]4 square feet.
